

Q1
least upon reception of a message such is stored in the memory and at least one hand ceases its time indicating function in order to come to show the calling number emitting the message.

SUBMISSION OF SECOND SUPPLEMENTAL REISSUE DECLARATION:

Submitted herewith is a second supplemental reissue declaration (unsigned) for consideration by the Examiner.

ADDITIONAL FEES:

No additional fees are believed required; however, should it be determined that a fee is due, authorization is hereby given to charge any such fee to our Deposit Account No. 01-0268.

REMARKS

In the last Office Action, the Examiner objected to the first supplemental reissue declaration, filed on July 31, 1996, under 37 CFR §1.172(a) as being defective because it has not been signed by applicant. Claims 7-19 were rejected under 35 U.S.C. §251 as being based upon a defective reissue declaration as set forth above. Claims 5 and 6 were rejected under 35 U.S.C. §251 because the phrases "wherein the calling numbers are inscribed on the dial or the bezel" (claims 5, 6)

and "a control arrangement including at least one stem fitted into a crown" (claim 5) introduce new matter into the disclosure. Claims 1-4 have been allowed.

In accordance with the present response, independent claims 5 and 6 have been amended to delete the recitations "or the bezel" (claims 5,6) and "including at least one stem fitted into a crown" (claim 5), thereby overcoming the new matter rejection of these claims.

Applicant further submits herewith an unsigned second supplemental reissue declaration to reflect the foregoing amendments to claims 5 and 6. The first and second supplemental reissue declarations are in the process of being executed and will be transmitted to the Examiner shortly by supplemental response.

In view of the foregoing, applicant respectfully requests that the rejection of claims 5, 6 and 7-19 under 35 U.S.C. §251 be withdrawn.

In view of the foregoing, claims 1-19 are now believed to be in allowable form. Accordingly, favorable reconsideration and allowance of the claims are most respectfully requested. Applicant also requests that an interference be declared with U.S. Patent No. 5,297,118 as heretofore requested.

Respectfully submitted,
